

I would just like to raise everyone's attention and ensure that you all remain safe following an incident that happened to me at Ruxley Roundabout on Saturday 29th December at 1.55 pm.

I was stationary in my car at the roundabout waiting to turn left into North Cray Road when I noticed 2 men standing on the grass by the road. I was then hit from behind by a small red car and almost immediately a third man wearing gloves was standing at my door telling me to get out of my car. Thankfully instinct kicked in and I refused to do so saying that I was calling the Police. They immediately disappeared into the red car and drove off. I would of certainly have got out of my car if there had only been one man, however the whole thing was clearly planned.

Please be vigilant around the Ruxley roundabout and surrounding area as there is defiantly a team of people looking to steal cars.

This has been fully reported to the Police and enquires are on going.
